WE **PROTECT**

We fight piracy and
clean the digital landscape

WE **LOCALIZE**

We work with existing tracks
or produce new ones

WE **DISTRIBUTE**

We publish on our YouTube
network with 10M+ subscribers

WE **MONETIZE**

We generate revenue and
share it fairly

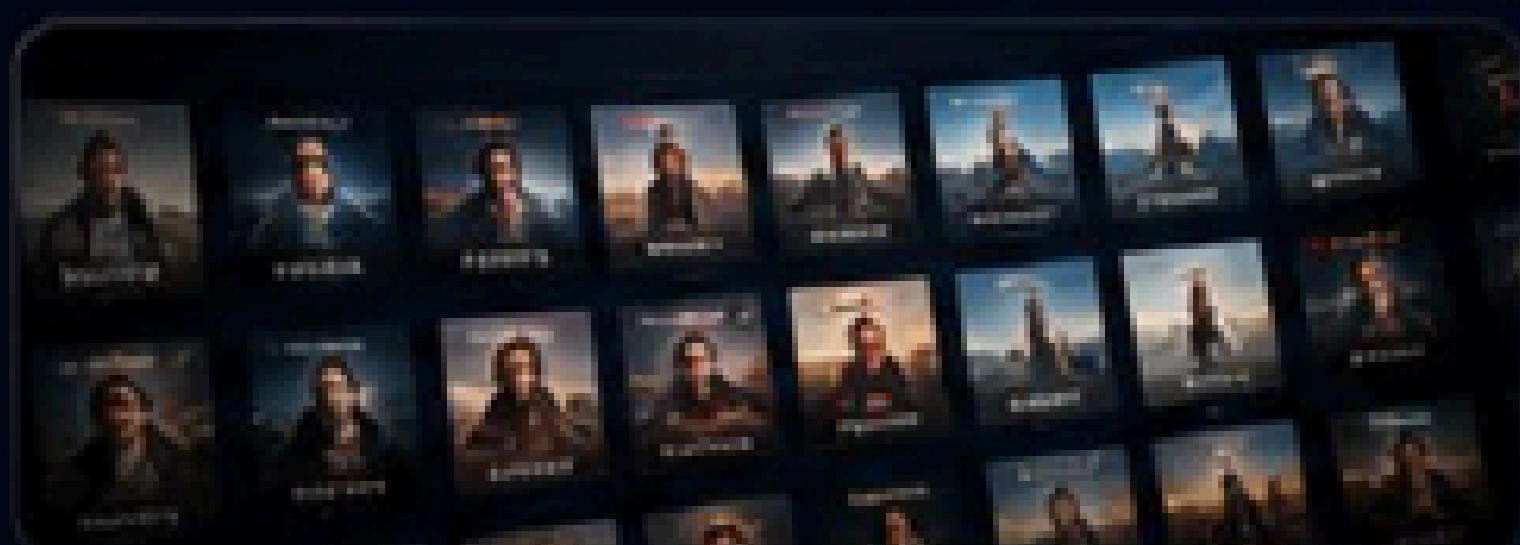

WE PROTECT.
WE LOCALIZE.

WE MONETIZE.

EXISTING CONTENT. NEW REVENUE.

Most content libraries already contain untapped value.

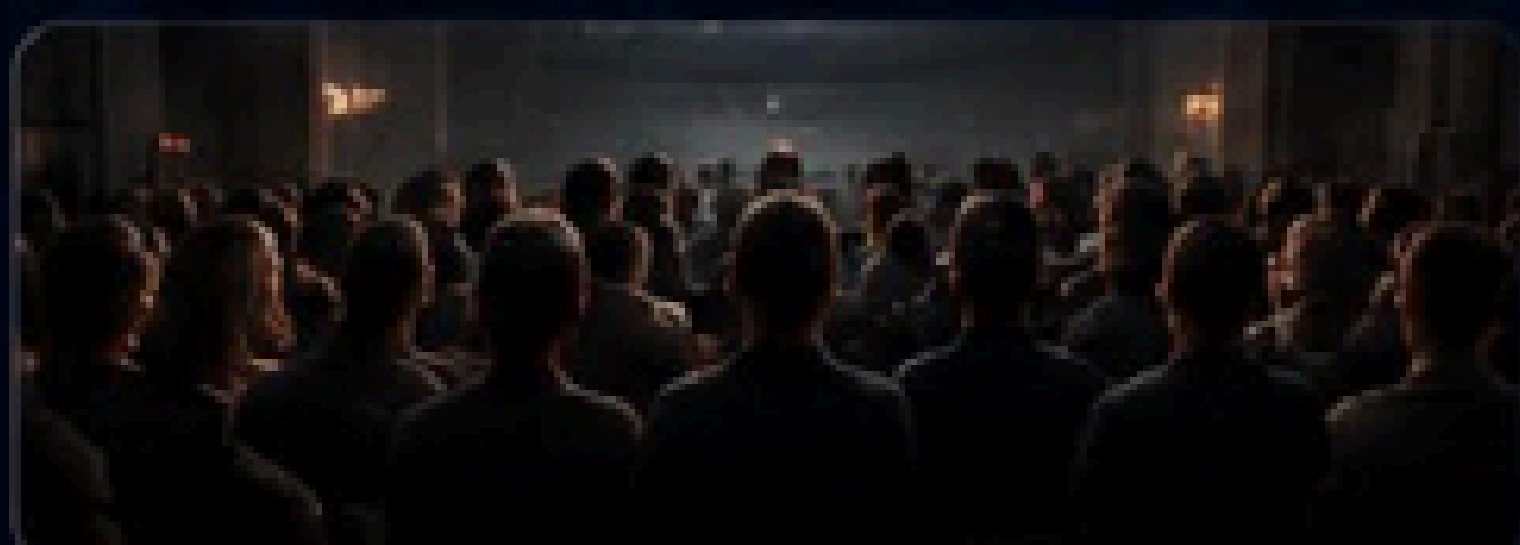

CONTENT LIBRARY

Thousands of hours of premium content.

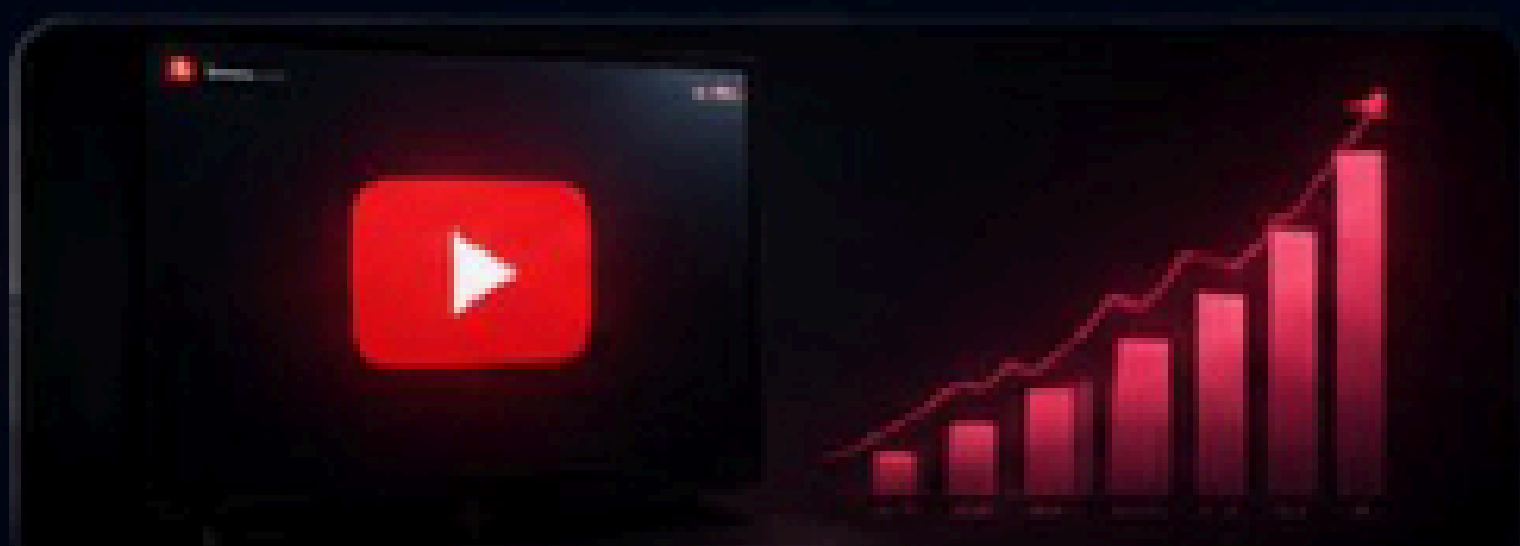

LOCALIZED AUDIO TRACKS

Russian and Ukrainian versions often already exist.

ESTABLISHED AUDIENCE

Millions of viewers actively consume this content.

NEW REVENUE STREAM

Through official YouTube distribution and monetization.

COMMON CHALLENGES

No Official YouTube Presence

Content is often absent or underrepresented on YouTube.

Audience Fragmentation

Viewers are spread across multiple unofficial sources.

Piracy Leakage

Traffic and engagement are redirected away from official content.

Unused Localization Assets

Existing language versions generate little or no additional revenue.

Most content libraries already have everything needed to generate revenue.

The missing piece is a monetization strategy.

OUR PROCESS

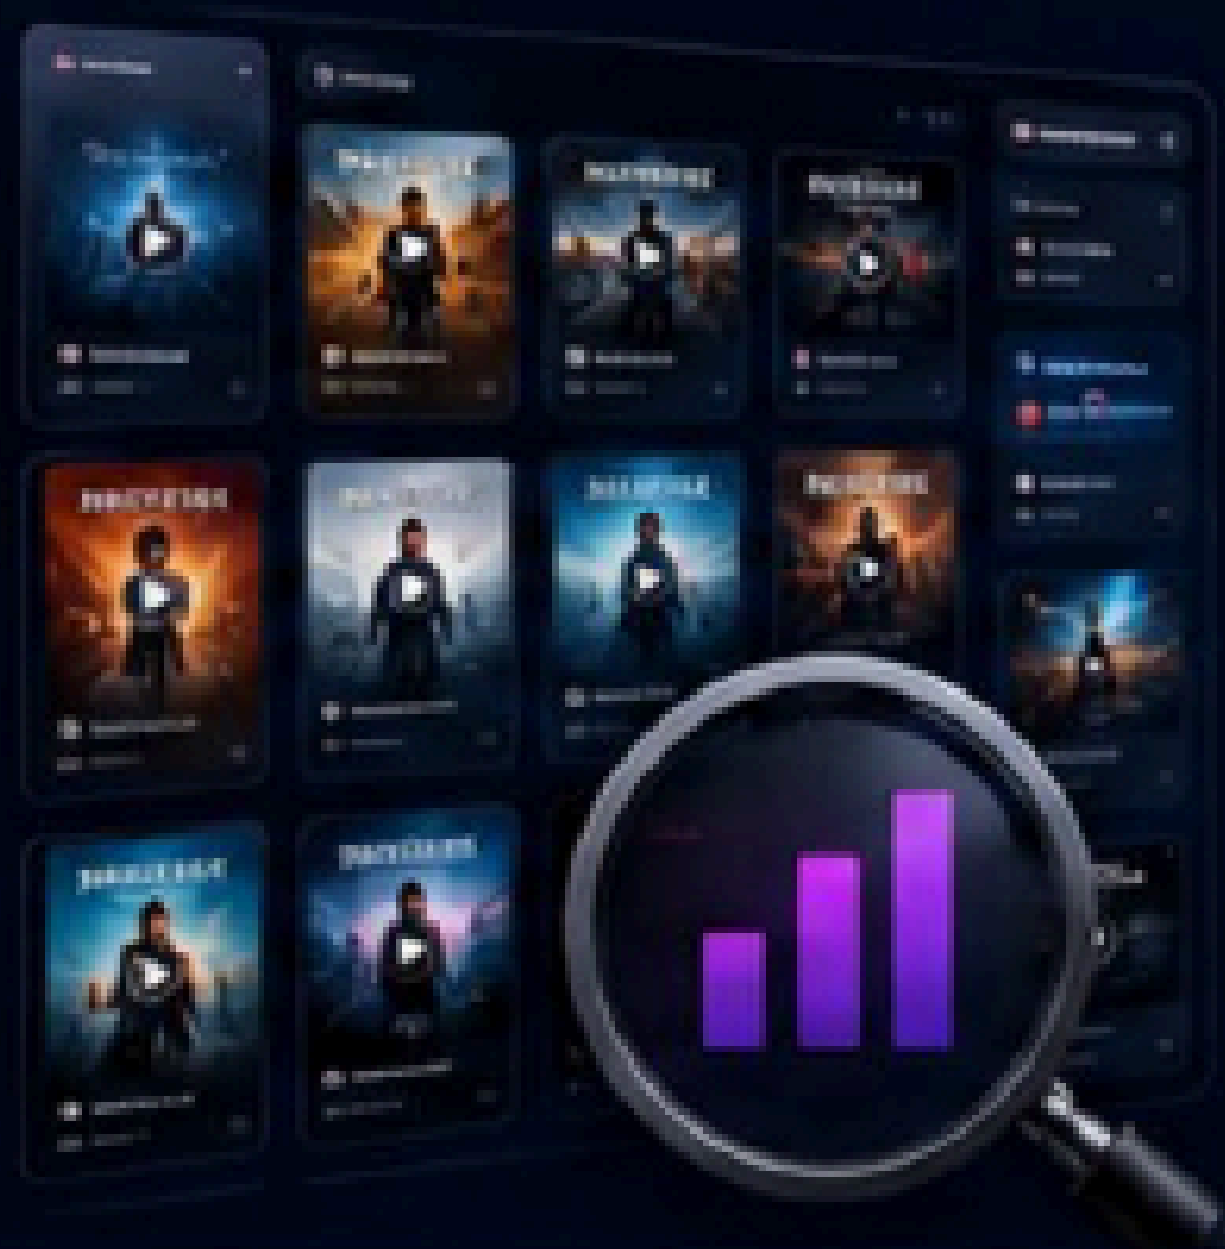

From assessment to revenue — a proven end-to-end workflow.

A complete end-to-end solution **for international content owners.**

THE PIRACY CHALLENGE

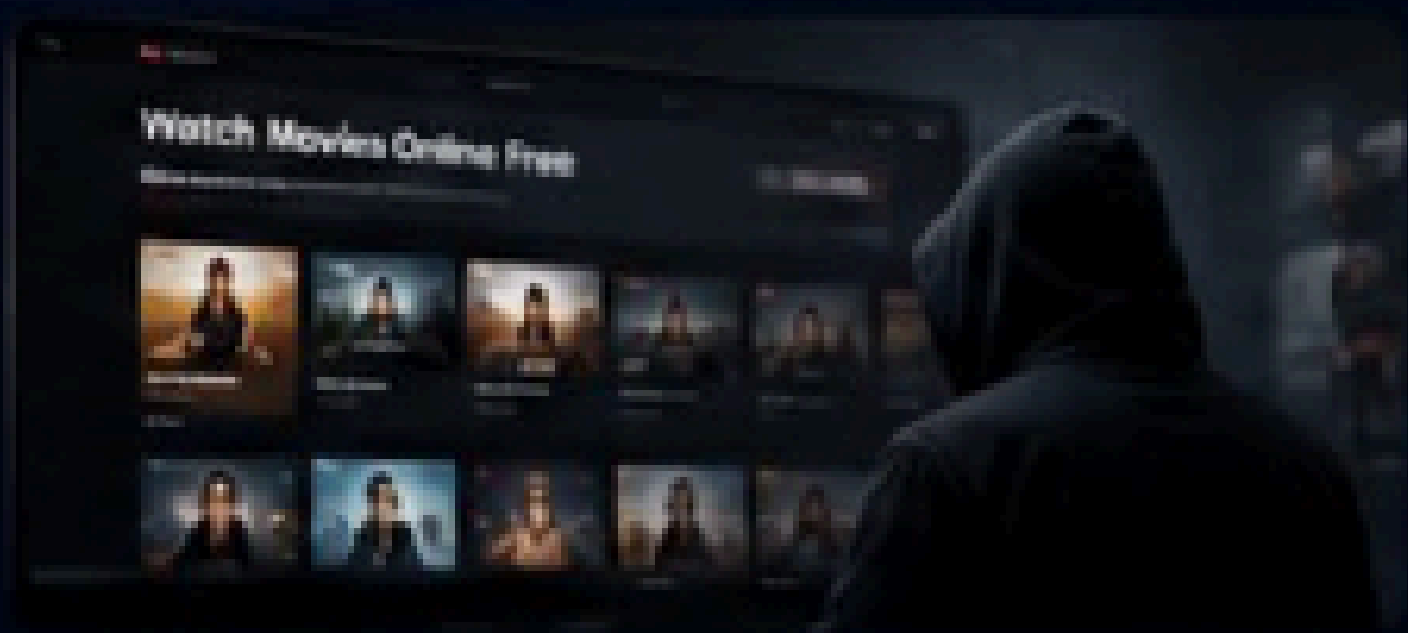

Piracy doesn't just hurt revenue. It redirects your audience.

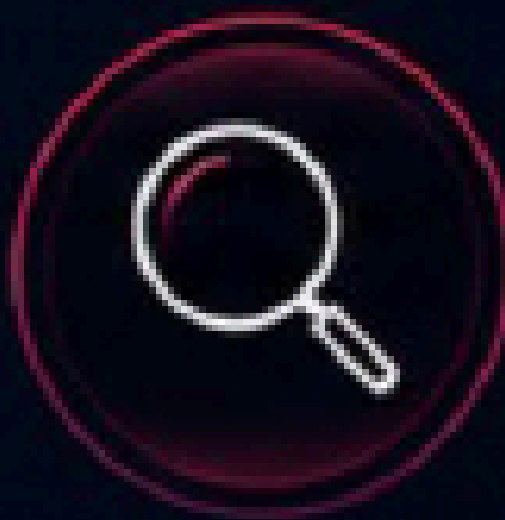

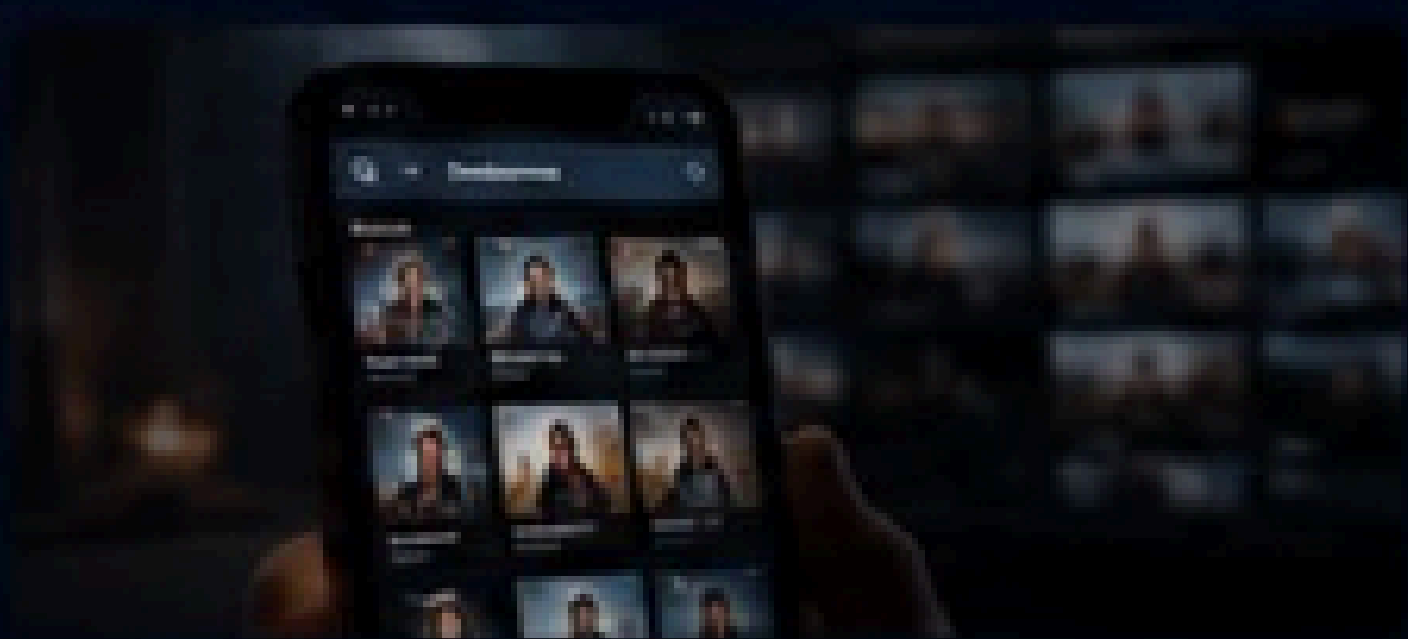

PIRATE WEBSITES

Illegal sites offer full seasons and movies for free, attracting millions of visitors every month.

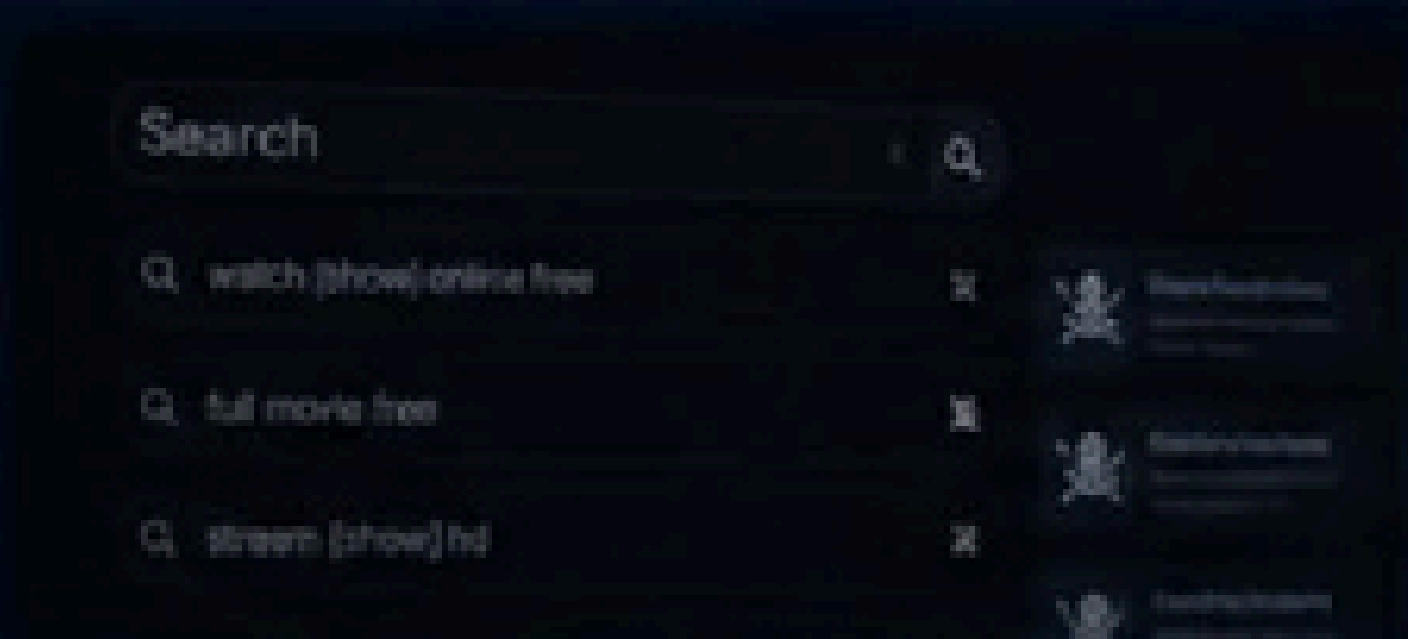

ILLEGAL STREAMING PLATFORMS

Apps and platforms distribute content at scale, often with better UX than official channels.

SEARCH VISIBILITY LOSS

Pirate sites dominate search results, making it harder for audiences to find official sources.

AUDIENCE FRAGMENTATION

Viewers are scattered across multiple unofficial sources, reducing engagement and brand connection.

Before monetization can succeed, **audience leakage must be addressed.**
